DF-1300 PAPER FOLDER

BE EFFICIENT WITH HIGH SPEED FOLDED MEDIA FROM
DF-1300 PAPER FOLDER

IDEAL FOR LOW TO MID-VOLUME RUNS
PROCESSES UP TO 18,600 SHEETS PER HOUR
ACCURATE AND SECURE FOLDING
MULTILINGUAL SUPPORT

*Brochures · Manuals · Personalised Documents
Magazines · Leaflets · Price lists*

SPECIFICATIONS – CONFIGURATION CONSISTS OF:

The DF-1300 is a simple desktop folder, with the capability of folding 310 sheets per minute at maximum speed. It comes as standard with a 4.3" LCD touch screen panel, for ease of use and Ultrasonic double feed detection, to ensure accuracy and enhances reliability.

DF-1300	
Paper Size	Maximum: 311 mm x 457.2 mm Minimum: 120 mm x 182 mm
Paper Size (standard paper)	A3/ B4/ A4/ B5/ A5/ B6
Paper Type	Sheet, Single fold (when cross folding)
Paper Quality (Fine quality paper)	52.3 gsm to 157 gsm*1
Paper Quality (art paper/ coated paper)	73.3 gsm to 157 gsm*2
Processing Speed (maximum)	310 sheets/min*3
Folding Speed Adjustment*5 (6 speed)	260 sheets/min
Folding Speed Adjustment *5 (7 speed)	310 sheets/min
Paper Feed Tray Loading Capacity	50 mm*6
Fold Types	Single fold, Double fold, Irregular Accordion fold, Letter fold, Accordion fold, Gate fold*4, Cross fold*4, Custom fold*4
Dimensions (when in use)	W-1,193 mm x D-587 mm x H-541 mm
Dimensions (when stored)	W-806 mm x D-587 mm x H-541 mm

*1 Depending on the paper manufacturing conditions, rough paper, stencil paper, recycled paper and medium quality paper are outside the specifications. A folding test is necessary.

Processing speed must be 3 or less for fine quality paper 81.4gsm.

*2 Depending on paper manufacturing conditions, it will be out of the specifications. A folding test will be necessary.

For A4 letter, short grain, single fold, 230gsm or less can be used.

Processing speed must be 3 or less for coated paper that is less than 104.7gsm.

*3 Paper quality: Fine quality paper 81.4gsm (Long grain)

Paper size: A4 (lengthways) Folding mode: single fold

*4 The type of folding modes available may be limited depending on paper quality and size.

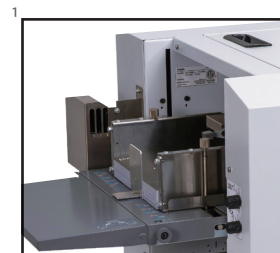

*5 Paper quality: Fine quality paper 81.4gsm (Vertical)

Paper size: A4, Folding mode: Single fold.

*6 Fine quality paper 84.1 gsm (equivalent to 490 sheets) 25mm or less for cross fold.

ULTRASONIC SENSOR AND SIDE AIR FAN –

Ultrasonic sensor and side air fan are equipped as standard. These functions eliminate double-feeding and enhance paper feeding quality, meaning we achieve reliable, accurate paper folding.

LANGUAGES –

This is multilingual machine, and operator friendly machine. Because you can select from the following languages: English, French, German, Italian, Spanish, Portuguese, Russian

COLOUR TOUCH PANEL –

4.3" Colour LCD touch panel is equipped as standard.
